Save your family time and money.

Preventative maintenance is an integral part of keeping your system operating smoothly. It keeps your unit running at its peak efficiency; saving you money on your energy bills. It can also improve the indoor air quality in your home and prevent most breakdowns before they occur. In most cases, your warranty will be void without proper maintenance. By becoming a member of the Comfort Club, you'll never have to hassle with remembering to schedule your maintenance. Comfort Club members receive:

- **Two free semi-annual safety and efficiency inspections.** These inspections keep your system operating at its peak efficiency. Small problems can be located and corrected before they become major problems.
- **10% discount.** Save 10% on parts and labor for all repairs.
- **Priority service.** When you have a problem with your HVAC system you are on the top of our list. We'll do our best to get your system up and running the same day you call.
- **Bonus bucks.** You'll earn bonus bucks every year that you're a member. You can use them like cash toward the purchase of a new system or accessory purchases of \$1,000 or more. For each consecutive year you're part of the Comfort Club you'll earn \$50 in bonus bucks. Bonus bucks are only available when you renew your agreement annually. If Comfort Club membership is not renewed bonus bucks will be lost. Maximum of \$300 in bonus bucks can be earned per customer.

\$125 / year ■ \$30 per additional system

- Spring safety and efficiency inspection
 - Fall safety and efficiency inspection
 - Prevents most breakdowns before they occur
